OPTION 1: Relay Conference Captioning

Relay Conference Captioning (RCC) is a free service available for Hawai'i residents who are deaf or hard of hearing to actively participate in multi-party teleconference calls or webinars by reading live captions via web browser on a computer or mobile device.

How does RCC work?

- 1** Captioner listens and transcribes conference call.
- 2** Deaf/hard of hearing RCC participant reads the captioned conference call using a computer monitor, tablet or mobile device.
- 3** RCC participant who prefers to **TYPE**:
The RCC participant types (3a) comments or questions and sends via "Message to Captioner". Captioner (3b) reads aloud the RCC participant's comments or questions to conference call participants.
- 4** RCC participant who prefers to **SPEAK**:
The RCC participant speaks directly to conference call participants via the same conference bridge used by the captioner.

OPTION 2: Embedded RCC

Embedded Relay Conference Captioning (RCC) is a feature that provides live streaming captions for spoken dialogue in telephone conference calls and webinars.

This service allows RCC participant to watch webinars with captions on the same screen in select popular webinar platforms.

Other webinar platforms may not have the option for embedded live streaming captions by RCC. In those instances, open two separate web browsers, one for webinar and another for RCC. This will enable you to view the webinar and captions side-by-side.
